New Model: Amer 116

Head lined as a project in the last couple years the new Amer flagship 116 model is finally launched and presented. The 116 like the previously 2007 launched 92 was fully designed by Italian firm Verme Projects, who presented Amer with a three deck super yacht, including its fully closed raised pilot house. Verme's styling bring an upper deck looking more coming from a hard top Sport Yacht then a flybridge, and the same can be said to the sweeping stern lines. Inside the 116 as all Amer yachts offers a near to total customisation with hull number one being a very owner dedicated three double cabin plan. Still the 116 can have up to six double cabins for a more charter friendly use, showing with this total flexibility in the interior plans. Speeds with the standard big twin MTU 2637hp engines is a max of 28 knots, but on option is a more economic to run smaller Cats 1925hp which give speeds up to 21 knots. Range distance is up to 750 nautical miles.

Technical Data:

LOA - 35 m (114.8ft)

Hull Length - 33 m

Beam - 7.40 m

Draft - 2.20 m includes props

Displacement - 125 t half load

Fuel Capacity - 16000 l

Water Capacity - 2500 l

Accommodation - up to 12 berths in 6 cabins

Engines - 2 x Cats C32 Acert 1925hp, MTU 16V 2000M94 2637hp

Speed - 28 knots max, 25 knots cruise with MTU 2637hp

Propulsion - in line shafts

Range - up to 750 nm

Design - Verme Projects
